**KEN BOARD**®  
PLAIN & PRE-LAMINATED PARTICLE BOARD

AN ISO 9001-2015 COMPANY

**Shade Card**  
Volume V

## Product Range :

### Plain & Pre-Laminated Bagasse Particle Board Wood Particle Board MDF Board

- Interior Grade
- Exterior Grade
- Both Side Laminated(BSL)
- One Side Raw (OSR)
- Texture Board
- Digital Pre-lam Board
- HD (high Density) Board
- Pin Board
- UV Board
- Acrylic Board
- Chalk & Marker Board
- Filler Board (for Modular & Flush Door)
- Packing Board

## Applications

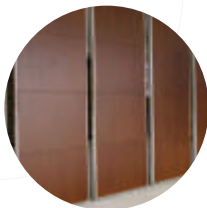

Modular Furniture

Office Furniture &  
Work Stations

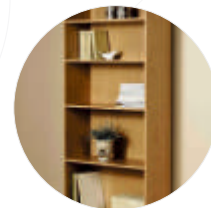

Kitchen Cabinet

Partition

Wardrobe &  
Bed

Book Cases &  
Wall Units

## Surface Finishes

- Matte
- Glossy
- Suede
- Textured
- 3D

## Thickness (mm)

- Bagasse Board (Thickness – mm) : 8, 9, 12, 17, 18, 25
- Wood Board (Thickness – mm) : 8, 11, 17
- MDF (Thickness – mm) : 2.10 To 35.

Size: 2440x1220 (8' x 4')

610 - Exotic Oak Natural

## OAK COLLECTION

388 - Sonam Oak Dark

388 - Sonam Oak Dark

## Why Particle Boards?

*Ready Made*

Particle boards are machine manufactured panels of desired dimensions, and thus standard pieces of furniture can be mass-produced using these boards. This further brings down the costs since there is no carpenter work involved. This also means ready-to-buy products for customers with zero waiting time.

389 - Sonam Oak Lite

608 - Exotic Oak Lite

537 - Cube Dice Lite

538 - Cube Dice Brown

461 - Jasmine White

## FLORAL COLLECTION

461 - Jasmine White

462 - Jasmine Black

## Why Particle Boards?

*Low Cost*

The main advantage of particle board over solid wood or plywood is that it is economic.

Compared to plywood furniture of similar dimensions, particle board furniture costs less than half.

# Advantages

## Why Particle Boards are better than other engineered woods

---

### **Low Cost:**

Compared to plywood furniture of similar dimensions, particle board furniture costs less than half.

### **Ready-made furniture:**

Particle boards are machine manufactured panels of desired dimensions, and thus standard pieces of furniture can be mass-produced using these boards.

### **Pre-laminated boards:**

A thin layer of lamination (decorative laminate) is usually glued over the surface of the particle boards at the time they are manufactured. Lamination increases the beauty as well as the durability of the board.

### **Light-weight:**

Particle boards are very light in weight, and hence furniture made from these boards is relatively easy to transport and move around.

# Plain & Prelaminated
